La Province Chinoise du Yun-Nan. By Emile Rocher. E. Leroux. Paris. This is a book of which we can speak in high terms. Admirably printed, neatly bound, and carefully supplied with Chinese characters in all places where necessary, it is calculated to engage the attention as much by its mechanical perfections as by the interest of its subject and the modest carefulness of the author. We shall take an opportunity of following the fortunes of M Rocher and his companions at greater length on another occasion; but, meanwhile, we hasten to commend his book to all students of Chinese history. The vivid and graphic picture of the Mahometan rebellion is perhaps the most striking portion of the work. One of the chief heroes, 科玉楊, is now General of Kwang Ting, and against him charges are still pending, as is written in the Chronicles of the Kings of China-the Peking Gazette. The account of the Miso-taz, Lolos. Pa-i, and other tribel is full of glowing interest. The History of Yun-Nan is parhaps the only one as yet written in a European tongue, and must be inyhow the most complete, as it brings us up to date. The information respecting the minerals of Yun-Nan and the method adopted in working them is full of interest, whilst the maps are probably as perfect as it is possible to make them with the appliances at hand when travellers are buried for years in the heart of China. We think M. Rocher has done wisely in adhering triotly to Sir Thomas Wade's spelling, which, whatever its im-

WE publish elsewhere a letter over the

signature of "Sigma," which calls our various correspondents to task for having overestimated the recent troubles in Canton City and on the settlement of Shameen. Had we suppressed this letter-which we might fairly have done, seeing that the writer has not favoured us with his nameit might have been supposed that we were determined to shut our eyes to any fair statement of the case. It will be seen, therefore, that we are ignorant as to who "Sigma" may be, and may thereby fail to give that weight to his remarks which his position might possibly demand. He differs very widely from his fellowresidents, and it would be interesting to learn whether he endeavour d to throw oil upon the troubled waters at the time, or whether he took any interest whatever in what was going on Our correspondents are all reliable men and not particularly excitable temperaments; and one of them was actually in the centre the City during a portion of the rictous not included. proceedings. Moreover, we owe this course of conduct to the Authorities, since they are denounced by the people for partiality to us.-I enclose a copy of the proclamation of the Kwang-chow-foo (Prefect).

This special proclamation is issued by the Prefect, bu of Kwong Foo, and the Magistrate Yuen, of Nam Hol, for general information to the effect that a fire broke out in the mat-sheds belonging to the stonemasons in front of the French Roman Catholic Cathedral. An alarm of fire was given, the people were in baste going to the spot with engines to extinuish the fire; but on the other hand the stone masons turned towards the p ople with abusive language, and therefore a quarrel was brought about between the two parties. If you people, have suffered any great insult or injustice, you ought to report the matter to either of the above Officers, who would interfere and render a satisfactory decision. But why is it that you people gathered a great number of men in order is explained, we have agreed to laste a clear proclamation, let people and soldiers know. hereafter you must behave yourselves properly within your duties and not from such occasion create any disturbance unless you body tremblingly obey. Do not oppose. A special proclamation 12th day of 8th moon of Kwongsul 6th.

(From a Correspondent.)

Friday Evening. The scare is over and comparative quiet prevails. To-day the streets adjoining the Cathedral show an absence of mobs and rioting. Shops are open and business and traffic are going on much as heretofore. This morning, the barricades were removed from the streets, and only two or three hundred soldiers were to be seen whose main business was to insist upon everybody moving on at quick march.

Proclamations were issued yesterday by the Viceroy with good effect, correcting the wild rumours that had been freely propagated during the day, as for instance that four men had been thrown into a well in the Cathedral grounds or out up to pieces by the Missionaries.

Your reports are a little misleading in one or two particulars. Your correspondents or informants seem to give the impression that the citizens generally took part in the disturbance. Now, it is a fact that the shoppeople and householders had nothing whatever to do with the riot, and that this row, as well as the threats against foreigners, were confined to that community of blackguards and thieves, so largely represented in the slums of Hongkong, who are ever listening for the fire-gong and whose great motto is "Down with everything that's up." Fortunately for them only two instead of 7 or 8 men, as you report, were killed by the military on Wednesday night. Blank cartridges were first served out, and a volley ordered to charge with bullets, and fire. The roughs, seeing two of their number fall and finding that the Magistrates were in earnest, cleared off, right and left, until next 11 or 12 o'clock. The military were then reinferced to the number of 2,000 strong. Bome were ordered to alear the streets and the others to guard the Cathedral the whole day. This was the last of the row, and labour. since then the affair has quieted down.

(N. C. Daily News.) Much has been published recently to our native contemporaries on Buddhis priests, and all to the disparagement of that fraternity, the most striking instance being that of a complaint against "Must be Good," a wealthy priest of Shanghai who has gone sadly astray. DR. J. COLLIS BROWNE'S CHLORODYNE

(Ex Army Med. Staff) IS THE ORIGINAL AND ONLY

CAUTION. - Vice Chancellor Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the Inventor of Chlorodyne, that the story of the Defendant, Freeman, being the Inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they pre scribe it largely, and mean no other than Dr. Browne's .- See Times, July 12, 1864. The public, therefore, are cautioned against using any other than Dr. J. Gollis Brownz's Chlorodynz.

REMEDIAL USES AND ACTION. This invaluable remedy produces quiet refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at al hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while

medical men extol its virtues most exten-CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for

THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at in-tervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such

extra matter. The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance. The publication includes papers original

The China Review for July and August, Nin 1875, is at hand. All our learn- Raj ed societies should subscribe to this scholarly | Sea and enterprising Review. It is a surry | Sur paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the Lievew. Address China Review, Hougkong .- Northern

Christian Advocate (U.S.) Trabuer's Oriental Record contains the following notice of the China Review :- " Title | Alic is the title of a publication, the first number | Ala of which has lately reached us from Hongkong, where it has been set on foot as in Am some respects a continuation of Notes and | Am Queries on China and Japan, the extinction Aut of which useful serial a year or two ago has | Bes been much regretted in Europe as well as Bua in China. The present publication, judging | Car by the number now before us, is intended to | Cer occupy a position, as regards China and the Cly. neighbouring countries, somewhat similar | Cor to that which has been filled in India by the | Ed Calcutta Review. The great degree of at- | Fle tention that has been bestowed of late years | Gr upon the investigation of Chinese literature, | Ha antiquities, and social developments, to say He nothing of linguistic studies, has led to the Jan accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desir. Jo able; and contributions of much interest | K may fairly be looked for from the members of the foreign consular services, the Chinese | Ma Customs' corps, and the missionary body, M. among whom a high degree of Chinese Or scholarship is now assiduously cultivated, Or and who are severally represented in the first number of the Keriew by papers highly creditable to their respective authors. In | Ro a paper on Dr. Legge's She King, by the Sa Rev. E. J. Eitel, to which the place of So honour is deservedly given, an excellent Sp. summary is presented of the chronological | I problems and arguments involved in con-nexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality Amoy and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its prede-cessor in the field, and that the China Review may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine.

THE CHINESE MAIL.

paper is now issued every The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents in- Peng cluding postage to Coast ports. It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantom and securities necessary to

place it on a business andlegal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,-Australia, California, Singapore, Penaug, Salgon, and other places frequented Chinese, - consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of Po

them. The field open to a paper of this descrip Spation—conducted by native efforts, but progressive and anti-obstructive in tone— Whi In almost limitless. It on the one hand Yo commands Chinese belief and interest while on the other deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials with Local, Shipping, and Commercial News and Advertisements.
